Would you tell us a little about your experience of working with Asia Exchange?

ISEN Yncréa Méditerranée had the opportunity to discover Asia Exchange when meeting Nina, an Asia Exchange representative during the EAIE congress in Sevilla. We immediately felt confident and impressed by the wide range of destinations and the quality of the support the team offers.

For three years now we have been working with Asia Exchange, mainly with the Putra Malaysia Campus. 12 of our students have spent one semester at Master or Bachelor level. Seven are going to attend next spring semester 2019 for a Bachelor program (Molecular and cell biology).

What have been the benefits of working with Asia Exchange for the university and the students?

The team is very efficient and reliable. They gave rapid help particularly for the acceptance letter, visa issuance and sending the official transcripts. They are always available which is very reassuring.

Each year, before departures one of their representative gives a presentation to the future students wishing to attend a semester abroad and meets the students enrolled for answering all their questions and checking that everything is in order.

What are the particular strengths of Asia Exchange?

Friendliness, reliability, rapid communication.

Which one of the Asia Exchange destinations would you choose, if you could choose your exchange destination now?

Definitively Malaysia, all the students were enthusiastic and validated their semester both in the Master of Computer Science and Information Technology as well in the Bachelor of Science.

What kind of feedback have you got from the students?

They adored Malaysia. They appreciated the quality of the courses and the kindness of the Malaysian students. They were surprised to have good free assistance for health on the campus and took the opportunity to travel almost every weekend! This is part of the experience abroad too.

They promoted the destination with very attractive videos of their stay and that is why Putra has such success.
