COURSE DESCRIPTION

Content creation is one of the biggest segments of digital nomads. A big role in this field plays photography and videography. In this course you will learn all basics to become the content creator that everyone has been looking for. You will learn the whole process from taking pictures and videos, to editing both and finally how to use the created content online.

OBJECTIVES

By the end of this course, students should be able to understand:

- How to take pictures?
- How to edit pictures?
- How to market your pictures online?
- How to sell pictures?

LECTURING METHOD

You will be walked through real-life examples of the various stages of content creation to help you understand how to be sustainable and environmentally friendly and how you can apply it for your own purposes. A series of homework exercises, tutorials and case studies will enable you to develop a perspective that goes beyond the theoretical scope, to prepare you for actual situations in the future.

ASSIGNMENTS

During the semester, you will do several assignments that are mainly focusing on literature reviews on different topics given by the lecturer. The assignments will be included in the course grade at the end of your semester.
