INTERNATIONAL POLITICAL  
ECONOMICS ECF3C11

Distance Learning Study Program

## **INTERNATIONAL POLITICAL ECONOMICS (5 ECTS)**

### **COURSE DESCRIPTION**

In the course “International Political Economics,” students will investigate situations that arise when the interaction between politics and economics. Instead of understanding the impact of different policies on the economy, students will also consider how other economic conditions shape policies. Furthermore, the course introduces the most used strategies to model the relationship between economics and politics.

### **OBJECTIVES**

By the end of this course, you will be able to:

- Understand common strategies of modeling politics and economics relationship
- How the ability to differentiate between the models and apply them to address real-life problems
- how to study these models empirically

### **LEARNING METHODS**

You will study with CLANED, a leading distance learning platform developed in Finland, Europe. In CLANED, you will enter a virtual classroom and learn with the aid of articles, online presentations, video presentations, interactive workshops, and project work. In addition to that, you will engage in interactive quizzes and assignments.

### **ASSESSMENT AND EVALUATION**

Throughout the student journey in the distance learning study course, students will encounter weekly quizzes and assignments. In addition to that, they will face midterm exams after the first six sessions, and the final exam after the last online class has been completed. To complete a distance learning course, students must pass all quizzes and exams as students must pass examinations to unlock the following study contents.

The assessment and evaluation in each distance learning course include detailed performance analytics and grades, given in %. In addition, each student will receive certification about study behavior analytics, including weekly study times, information about the study frequency, measured attendance, and total accumulated study time.
