# WARMADewa UNIVERSITY INTERCULTURAL COMPETENCE IN PROJECT MANAGEMENT

CAC33B04

International Program

## INTERCULTURAL COMPETENCE IN PROJECT MANAGEMENT

5 ECTS

### COURSE DESCRIPTION

This course introduces you to the effects of living in a globalized world on businesses. International projects are becoming more and more frequent. This opens many possibilities for businesses and project managers, but it also entails some challenges due to the cultural differences between team members. Multi-cultural project teams can increase the chance of a project's success because they are diverse, have their own set of skills, and can offer new perspectives to the project. This all can help the project and the company to be more effective, gain valuable experience, and increase its competitiveness.

Intercultural competence is essential for project management because the variable 'culture' influences all three constraints of project management (cost, schedule, scope), which can impact a project's success. You will learn all you need to know about leading intercultural projects successfully during this course.

### OBJECTIVES

By the end of this course, students should be able to:

- Successfully interact with and lead a team of people from different cultures.
- Manage the cost, schedule and scope of intercultural projects.
- Learn how to utilize software, social media and AI in your projects.
- Plan and execute an intercultural project.

### LECTURING METHOD

The course will be presented in lecture activities, classroom assignments and discussions, case studies, special topic presentations, and homework. Students will be working primarily based on real-life stories, though additional materials can be assigned from time to time. To understand the topics covered in this course, students must read the supplied online material before class sessions to contribute thoughtfully to the class discussions and exercises.

### ASSIGNMENTS

During the semester, you will do several assignments that are mainly focusing on literature reviews on different topics given by the lecturer. The assignments will be included in the course grade at the end of your semester.

### ASSESSMENT METHOD

Class participation and assignments 20 %

Mid-term exam 40 %

Final project 40 %

### LECTURER

Dr. Ni Luh Putu Indiani, S.E.,

M.M. Ni Kd Sioaji Yamayanti,

S.E., MBA and guest lecturers
